Professional Summary

Software Developer with 3 years of experience designing and building high-performance web applications. Proficient in React, Next.js, TypeScript, Node.js, and Express.js with solid knowledge of software development principles, design patterns, and scalable architectures. Experienced in optimizing performance and implementing maintainable UI systems. Skilled in Agile development, collaboration, and delivering robust, user-focused solutions, and currently seeking opportunities as a Software Engineer or Frontend Engineer, focusing on performance and scalability.

Education

Bachelor of Computer Science — Thebes Academy,

09/2019 _ 06/2023

Work Experience

Software Developer — Etmam Advance Technology (Onsite, Saudi Arabia)

04/ 2026 – Present

- Developed and customized HR, ERP, and Fleet Management Systems for the land transportation sector.
- Built responsive and scalable web interfaces using modern frontend technologies to enhance user experience and operational efficiency.
- Integrated backend APIs and implemented business workflows, dashboards, and operational modules.
- Improved system performance, accessibility, and cross-browser compatibility while collaborating with cross-functional teams using Git workflows.

Front-End Developer — SamTech Middle East (Remote, UAE, Dubai)

Aug 2024 – Present

- Designed and implemented highly responsive, user-friendly web interfaces using HTML, CSS, and JavaScript, improving page load times and user engagement.
- Collaborated with UI/UX designers to translate complex mockups into interactive, pixel-perfect components, enhancing the overall user experience.
- Worked with backend developers to integrate APIs and dynamic features seamlessly, ensuring smooth functionality across web applications.
- Leveraged Git for version control, code reviews, and collaborative development, reducing bugs and accelerating feature delivery.
- Optimized website performance and ensured cross-browser and cross-device compatibility, increasing accessibility and usability

AMIT Learning – Full Stack Developer Training (Onsite, Egypt)

11/2023 – 03/2024

- Completed intensive full-stack training with emphasis on clean architecture, RESTful API development, and Agile methodologies.
- Developed and delivered multiple full-stack projects, implementing backend logic, database integration, and dynamic front-end interfaces.
- Collaborated in teams using Git-based workflows, enhancing version control, code quality, and project management skills

Projects

- **Tabe3 (Fleet Management System) :**
 - Contributed to building a **complete fleet management system** with real-time vehicle monitoring and operational tools.
 - Developed and integrated **live GPS maps** using real-time data streams for accurate vehicle tracking.
 - Developed interactive dashboards with advanced data tables and filtering for better data management.
 - Built a secure **admin panel** with role-based access control and full CRUD modules for managing fleets, drivers, and assets.
 - Created interactive dashboards with **advanced data tables**, custom filters, and high-performance data handling.
 - Worked extensively on **real-time features**, complex tabular data views, and custom reusable UI components.
 - Optimized system performance for handling large-scale fleet data efficiently.
 - **Tech Stack:** Next.js, TypeScript, React.js, React Query, Styled-Components, RESTful APIs
- **Taskey :**
 - Collaborated with SamTech Middle East to develop a scalable web application using Next.js and TypeScript.
 - Designed and built interactive dashboards to visualize and manage business data efficiently.
 - Developed fully customized dashboard components, including charts, tables, filters, and data-driven UI elements.
 - Integrated barcode and QR code scanning features to streamline daily operations and improve workflow efficiency.
 - Contributed to UI/UX enhancements by implementing improvements based on real user feedback.Tech.
 - Ensured a high-performance interface with a strong focus on speed, usability, and scalability.
 - Tech Stack: **Next.js, TypeScript, React.js, React Query, Styled-Components, RESTful APIs.**

Skills

- **Languages:** TypeScript, JavaScript (ES6+), C#, C++
- **Frontend:** React.js, Next.js, React native,(SSR/SSG), Styled-Components, Tailwind CSS, Bootstrap, JQuery
- **BackEnd:** Node.js, Express.js, Nest.js, Basic PHP
- **State & Data:** React Query, Redux/Context API, React Hook form, Radix UI, Shadcn UI, MUI, Chart.js
- **Testing & QA:** React Testing Library
- **Database:** MySQL, Mango DB,
- **DevOps:** Docker, CI/CD
- **Tools:** Git, GitHub Actions, RESTful APIs, Jira,
- **More Skills:** Object-Oriented Programming (OOP), Data Structures, Algorithms, Agile
- **Interpersonal Skills:** Team-Oriented, Adaptable, Strong Communication, Time Management, Creative Problem Solver, Fast Learner, Friendly,

Language

Arabic: native

English : Intermediate
